COMMERCIAL SIGNAGE

Commercial Pylon Signage

Roadside tenant identification presented through a completed commercial pylon sign.

PROJECT DOCUMENTATION

Prepared by VC Image Group from supplied project imagery and confirmed information

Project Overview

This case study documents completed commercial pylon signage intended for visibility from the roadway. The supplied images show the sign from multiple exterior viewpoints and document the overall tenant-identification presentation.

Documented Scope

- Commercial sign presentation and tenant identification
- Multi-view exterior documentation
- Visual alignment and finished-face review
- Roadside visibility assessment from available viewpoints

Execution Notes

The project imagery focuses on the completed sign in its installed environment. Multiple views document legibility, overall proportion, and the relationship between the sign and surrounding commercial property.

Documented Result

A completed pylon sign that consolidates tenant identification into a prominent roadside display.

Project Record

Project type	Commercial pylon signage
Service	Commercial sign production or installation
Environment	Roadside commercial property
Documented views	Three exterior viewpoints
Unconfirmed	Client, dimensions, material, date, and fabrication scope
